Combined with availability of substantial credit capacity, we enhance the logistics, timing, terms and pricing of bunker procurement for customers.

Integr8’s Anti-Slavery Policy is our commitment to:

- Acting ethically and with integrity in our business relationships, and
- Implementing and enforcing effective systems and processes,

to ensure modern slavery is not taking place anywhere in our own business or in any of our supply chains.

DUE DILIGENCE PROCESSES FOR SLAVERY AND HUMAN TRAFFICKING

Integr8’s Anti-Slavery Policy sets out our intention to be cognisant of and identify any potential risk areas in our supply chains and to protect any whistle blowers if any such risks are found and reported.

We require all employees and workers to have read, understood and comply with Integr8’s Anti- Slavery Policy.

SUPPLIER ADHERENCE TO OUR VALUES AND ETHICS

Integr8 will not knowingly support any business involved in slavery or human trafficking. We expect our suppliers and contractors to take steps to not use forced, compulsory or trafficked labour, or anyone held in slavery or servitude. Our suppliers are expected to hold their own suppliers to the same standards.

TRAINING

To ensure an appropriate level of understanding of the risks of modern slavery and human trafficking in our supply chains and our business, training on Integr8’s policy forms part of the induction process for all individuals who work for us, and regular training will be provided as necessary.

This statement is made pursuant to section 54(1) of the Modern Slavery Act 2015 and constitutes Integr8’s slavery and human trafficking statement for the financial year ending 2019.
